

## 4 Page Art Template to be Taped End to End

This is the Art template for a men's tie.

Please note that artwork must fill the entire template, from outside edge to outside edge. The fabric will be folded and sewn into a 3 3/4" finished tie.

Refer to the solid guide line within the template to see which area of the art will show on the finished tie. This area is referred to as the "Target Area."

The dashed lines are the "Tolerance Lines," which indicate a 1/4" allowance for variances in printing, sewing, ironing, etc. Note that centering is NOT guaranteed. Therefore these Tolerance Lines are important. We suggest that if there is any artwork that must show on the front of the finished tie, then you make sure that it falls within the Tolerance Lines.
